Suntalam ve MDF lam kaplama Mobilyaların temizliği;

Mobilyalarımızın temizliğini ciddi bir kirlenme olmadığı müddetçe **saf temiz su** ve normal temizlik bezleri ile yapabilirsiniz. Ancak zamanla oluşabilecek kararma ve lekelenmelere karşı temizlik suyuna bir miktar temizlik sıvısı eklenebilir. Ürünlerde kullanılan ahşap panel levhaların kenarları PVC yapıştırırmadır. Kenarlardan girebilecek su sızıtısı malzemenin şişmesine ve zamanla çürümesine neden olacaktır. **Burada dikkat edilmesi gereken** temizlik sonunda kuru bir bezle mobilyanın tamamen nemli bir yer kalmayacak şekilde silinmesidir.
